This *open eir* Access Reference Offer (ARO) Price List, Version 3.7, is effective as a standalone document from the 1st of October 2008 and is published on the *open eir* website.

All prices that have changed from Version 2.1 have the effective date of the price changed marked in the “Applicability” column or as per the table heading.

This list contains details of the services detailed in Annex C of the *open eir* Access Reference Offer an index of which is included below.

Index of open eir Access Reference Offer Price List

Service Number	Schedule	Service Title
101		Physical Co location
102		Unbundled Local Metallic Path Service
103		Line Sharing Service
104		Sub Loop Unbundling
106		GLUMP

The charges set out in the *open eir* ARO Price List are subject to the provisions of the Regulations of the European Parliament and the European Council on Unbundled Access to the Local Loop EU Regulation (EC) No. 2887/200. Any changes to these prices are exempt from the requirements of Clause 26 of the *open eir* Access Reference Offer (ARO) and do not constitute Amendments as defined in Clause 26 of the Access Agreement.

Operators will be notified when changes are made to the ARO Price List published on *open eir*'s website.

The charges relevant to each service are listed in Euro and are shown in this document exclusive of VAT.

ANNEX C **SERVICE SCHEDULE 101** *Physical Co-location*

There are four distinct charging elements of physical Colocation offered by *open eir*. These can be divided into the following categories.

Pre Order Charges (One off charges per request)

Site Preparation Charges (One off charges per site)

Site License Charges (Annual license for occupancy services)

Attendance Services (Invoiced per site visit each month)

For additional detail on the services and their terms and conditions please revert to the Access Reference Offer document.

1. Pre-Ordering Charges effective from the 1st October 2008:

Pre-Ordering Service	Price €	Comment
Initial Survey Request	€207	Standard Price
Full Survey Report	€1,315	One standard price regardless of building type.
Combined Full Survey Request and Site Offer	€2,786	One standard price regardless of building type.
Site Inspection	€1,078	One standard price regardless of site location.
Site Offer	€1,471	Standard Price

Pre-Ordering Charges effective from the 12 December 2011:

Pre-Ordering Service	Price €	Comment
Initial Survey Request	€207	Standard Price
Full Survey Report	€841	One standard price regardless of building type.
Combined Full Survey Request and Site Offer	€1800	One standard price regardless of building type.
Site Inspection	€1,078	One standard price regardless of site location.
Site Offer	€959	Standard Price

Note: The Access Seeker may wish to proceed immediately to the Site Offer stage of a co-location project and in this case the applicable charge shall be the sum of the relevant "Full Survey Report" charge and the "Site Offer" charge.

If following any stage above, the Access Seeker requests a Site Inspection, the charges shall be as detailed in the table above.

In the event that the Access Seeker seeks modifications to a Site Offer, *open eir* shall be entitled to recover any additional costs incurred as a result.

Note: The Access Seeker may wish to proceed immediately to the Site Offer stage of a co-location project and in this case the applicable charge shall be the sum of the relevant "Full Survey Report" charge and the "Site Offer" charge.

If following any stage above, the Access Seeker requests a Site Inspection, the charges shall be as detailed in the table above.

In the event that the Access Seeker seeks modifications to a Site Offer, *open eir* shall be entitled to recover any additional costs incurred as a result.

2. Site Preparation

The prices listed below are also only applicable where the incremental capital expenditure required for exchange site preparation is relatively low. It is therefore appropriate that, where the actual Site Preparation expenditure exceeds the up front Site Preparation price produced by the principles for any exchange by more than €20,000 EUR, *open eir* be allowed to recover the actual cost of the site preparation from the requesting operator.

2.1 Site Preparation charges (per footprint)

Effective from the 1st of April 2005 to 31st December 2013:

Location Type	Standby Generator Provision	False Flooring	Air-conditioning Provision	Small Exchange	Medium Exchange	Large Exchange
Urban	No	No	No	€236.38	€287.41	€389.47
			Yes	€236.38	€287.41	€389.47
		Yes	No	€335.84	€381.64	€478.99
			Yes	€350.73	€395.74	€492.39
	Yes	No	No	€236.38	€287.41	€389.47
			Yes	€236.38	€287.41	€389.47
		Yes	No	€359.27	€403.83	€500.07
			Yes	€374.15	€417.93	€513.47
Rural	No	No	No	€287.97	€347.39	€466.22
			Yes	€287.97	€347.39	€466.22
		Yes	No	€421.44	€473.83	€586.34
			Yes	€440.49	€491.88	€603.49
	Yes	No	No	€287.97	€347.39	€466.22
			Yes	€287.97	€347.39	€466.22
		Yes	No	€450.94	€501.78	€612.89
			Yes	€469.99	€519.83	€630.04

2.1.1 Site Preparation charges (per footprint)

Effective from the 1st of January 2014 :

Location Type	All Exchange Sizes	All Exchange sizes - OAO provides their own DC Power solution
First Footprint	€16,237	€5,742
Second and subsequent footprints	€237	€237

2.2 Service Provision (Capital Contribution per requested kW) Effective from the 1st of April 2012 to 31st of December 2013:

Location Type	Standby Generator Provision	Air-conditioning Provision	All exchange sizes
Urban	No	No	€1,806.92
		Yes	€3,271.66
	Yes	No	€1,896.74
		Yes	€3,430.58
Rural	No	No	€2,640.83
		Yes	€4,105.56
	Yes	No	€2,716.49
		Yes	€4,250.32

2.2.1 Service Provision (Capital Contribution per requested kW) Effective from the 1st of January 2014:

From this date all capital contributions to service provision costs will be recovered from the site preparation charges per footprint published at 2.1.1 above.

2.3 MDF Terminations

The Basic charge includes the first 10m of external and the first 10m of internal cable installation. The per metre charge applies only to internal or external installations of more than 10m. e.g. an installation of 11m external and 9m internal fibre cable would attract a charge of €231.76 plus €14.29, an installation of 9m external and 11m internal fibre cable would attract a charge of €231.76 plus €8.89 and so on.

Effective from the 1st of April 2005 to 31st December 2013:

		Small Exchange	Medium Exchange	Large Exchange
MDF Block (per 100 pairs, includes cabling)		€241.64	€279.77	€356.04
Fibre Cable Installation	Basic Charge	€231.76	€231.76	€231.76
	External (per m)	€14.29	€14.29	€14.29
	Internal (per m)	€8.89	€8.89	€8.89

With effect from the 1st of January 2014 the costs of extending the OAO cable to the MDF will be recovered from the site preparation charge per footprint published at 2.1.1 above.

3. Site License Charges – per site

The annual basic rental licence fee is calculated in three parts. The rental of exchange space is calculated by combining tables 3.1.1 and 3.1.2.1 so for instance two

footprints in Crown Alley (would attract a charge of 2 x €465 x 1.69 for an exchange with stand-by

In addition there is a separate charge per footprint for services shown at table 3.1.3.1 which in this example will be 2 x €225.56.

The third element of the annual charge is per site shown at table 3.2.2 and an Operator taking the current service for LLU will be charged €361.73.

In this example the total annual charge before power usage is €2,384.55.

If the stated power usage requirement is 1 kW then there will also be a power usage charge of €1,458.59* per annum shown at table 3.4.2 giving a total annual bill of €3,843.14.

* And may change from time to time

3.1.1 Basic Rental - Per square meter

Effective to 30 September 2009

Standard Hours	€62.59	€12.85
After Hours	€93.89	€18.97

Unplanned Access Charges effective to the 30th September 2008:

	First 30 Mins. on Site	Subsequent 15 minutes
Standard Hours	€121.04	€18.17
After Hours	€217.90	€33.32

Unplanned Access Charges effective from the 1st October 2008:

	First 30 Mins. on Site	Subsequent 15 minutes
Standard Hours	€87.89	€18.97
After Hours	€125.83	€28.46

C. Unescorted Access Accreditation

The Access Seekers Staff (including their contractors) must be individually accredited to be given “Accredited Access Rights”. The charges for Unescorted Access Accreditation are set out in the table below.

Ist Time Application	€341.11
Re Test	€268.88
Annual Renewal of Card	€76.08

D. Escorted Access Accreditation

The Access Seekers Staff (including their contractors) must be individually accredited to be given “Accredited Access Rights”. The charges for Escorted Access Accreditation are set out in the table below.

Application for Escorted Access Registration	€76.08
Annual Renewal of Card	€76.08

ANNEX C

SERVICE SCHEDULE 102

Unbundled Local Metallic Path

Service

Effective from 1st June 2013 an Operator can elect to avail of either Standard or Amortised pricing for the connection/migration or fault repair.

Standard pricing refers to the business as usual pricing for ULMP where the full charge for connection/migration or fault repair is invoiced as a single once-off charge on the next invoice following the actual event. These charges are set out in Table 1.1 to Table 1.7 below.

Amortised pricing refers to a regime where the connection/migration or fault repair charge is levied through an initial up-front element with the remainder of the charge being levied as a recurring monthly charge for the life of the service provided. These charges are set out in Table 1.8 to Table 1.13 below.

An Operator can select Standard or Amortised charging separately for connection/migration and fault repair.

1.1. Standard Connection Charges

These reflect the standard connection charges and any applicable pricing promotions for a particular period and/or a particular order type. For details of promotions please refer to section 1.14.

1.14 Promotion Details¹

Current Promotions

Below lists the current promotions offered for ULMP.

Promotion 11: (formerly referred to as Note 11)

Terms & Conditions:

LLU Lines must be in situ or pre-cabled & have been inactive for a period of 6 months on the open eir network.

The Promotion will commence on 1st January 2013 and run until 30th June 2013. A list of all lines qualifying for this promotion will be provided in December 2012.

A line will only qualify for this promotion if it is ordered (order acknowledged) within the timeframe of the particular phase in which it is listed. Lines qualifying for the promotion will benefit from a discount of 100% on the current LLU line rental at time of order for a period of 10 months from the date of order completion. In the event of the cessation or migration of the LLU service to another operator over the course of the 10 month period, all further benefits under the promotion will be terminated from that point onwards. Prevailing rental charges will come into effect after the 10 month period has elapsed.

Promotion 12:

Terms & Conditions:

LLU Lines must be in situ or pre-cabled & have been inactive for a period of 6 months on the open eir network.

The Promotion will commence on 1st July 2013 and run until 31st December 2013. A list of all lines qualifying for this promotion will be provided in June 2013.

A line will only qualify for this promotion if it is ordered (order acknowledged) within the timeframe of the particular phase in which it is listed. Lines qualifying for the promotion will benefit from a discount of 100% on the current LLU line rental at time of order for a period of 10 months from the date of order completion. In the event of the cessation or migration of the LLU service to another operator over the course of the 10 month period, all further benefits under the promotion will be terminated from that point onwards. Prevailing rental charges will come into effect after the 10 month period has elapsed.

Promotion 13:

Terms & Conditions:

LLU Lines must be in situ or pre-cabled & have been inactive for a period of 6 months on the open eir network. The Promotion will commence on 1st January 2014 to 30th June 2014. A list of all lines qualifying for this promotion will be provided in December 2013.

A line will only qualify for this promotion if it is ordered (order acknowledged) within the timeframe of the particular phase in which it is listed. Lines qualifying for the promotion will benefit from a discount of 100% on the current LLU line rental at time of order for a period of 12 months from the date of order completion. In the event of the cessation or migration of the LLU service to another operator over the course of the 12 month period, all further benefits under the promotion will be terminated from that point onwards. Prevailing rental charges will come into effect after the 12 month period has elapsed.

Promotion 14:

Terms & Conditions:

A rental credit of €50 will be applied to eligible LLU in situ or pre-cabled Lines that have been inactive for a period of 6 months or more on the open eir network and once connected remain active for 6 months. The Promotion will commence on 9th March 2015 to 30th September 2015. A list of all lines qualifying for this promotion will be provided in February 2015. The credit will be applied in Month 7.

A line will only qualify for this promotion if it is ordered (order acknowledged) within the timeframe of the particular phase in which it is listed. . In the event of the cessation or migration of the LLU service to another operator over the course of the 6 month period, all further benefits under the promotion will be terminated from that point onwards. Rental charges will come into effect once the line is connected.

¹ For historic details of promotions, please refer to ARO Price List Version 6.3

ANNEX C

SERVICE SCHEDULE 103

Line Sharing Service

The charges applicable to the Line Sharing Service are as follows:

Effective from 1st June 2013 an Operator can elect to avail of either Standard or Amortised pricing for the connection/migration or fault repair.

Standard pricing refers to the business as usual pricing for Line share where the full charge for connection/migration or fault repair is invoiced as a single once-off charge on the next invoice following the actual event. These charges are set out in Table 1.1 to Table 1.7 below.

Amortised pricing refers to a regime where the connection/migration or fault repair charge is levied through an initial up-front element with the remainder of the charge being levied as a recurring monthly charge for the life of the service provided. These charges are set out in Table 1.8 to Table 1.13 below.

1.3 Connection Order with Successful Completion

Service	Price €	Applicability
Sub Loop ULMP (with survey for spare pair)	168.65	Effective to 31/5/2013
Sub Loop ULMP (with survey for spare pair)	82.03	Applies from 01/04/13 to 31/5/2013
Sub Loop ULMP (with survey for spare pair)	72.73	Effective from 01/6/2013
Sub Loop ULMP (without survey)	135.92	Effective to 31/5/2013
Sub Loop ULMP (without survey)	49.30	Applies from 01/04/13 to 31/5/2013
Sub Loop ULMP (without survey)	40.00	Effective from 01/6/2013
Sub Loop Line Sharing (with survey for spare pair)	172.51	Effective to 31/5/2013
Sub Loop Line Sharing (with survey for spare pair)	85.89	Applies from 01/04/13 to 31/5/2013
Sub Loop Line Sharing (with survey for spare pair)	76.59	Effective from 01/6/2013
Sub Loop Line Sharing (without survey)	139.78	Effective to 31/5/2013
Sub Loop Line Sharing (without survey)	53.16	Applies from 01/04/13 to 31/5/2013
Sub Loop Line Sharing (without survey)	43.86	Effective from 01/6/2013

1.4 Connection Order Failing Validation

Service	Price €
Sub Loop ULMP (with survey for spare pair)	45.21
Sub Loop ULMP (without survey)	17.38
Sub Loop Line Sharing (with survey for spare pair)	45.43
Sub Loop Line Sharing (without survey)	17.60

1.5 Cancel Order

Service	Price €
Sub Loop ULMP	€24.12
Sub Loop Line Sharing	€24.12

1.6 Monthly Rental

A line will only qualify for this promotion if it is ordered (order acknowledged) within the timeframe of the particular phase in which it is listed. . In the event of the cessation or migration of the LLU service to another operator over the course of the 6 month period, all further benefits under the promotion will be terminated from that point onwards. Rental charges will come into effect once the line is connected.

1.7 Standard Bulk Data Charges

Bulk Data files are available free of charge via open eir's Unified Gateway.

The Bulk Data files provide the OAO with information on the capacitance of lines at particular open eir sites.

Service 1.8 Amortised Connection Charges

Service	Price €	Applicability
LS Connection Charge with Successful Completion (existing metallic path – Access Seeker provides exchange splitter) **	€2.50	Effective from 01/06/13
LS Connection Charge with Successful Completion (existing metallic path – Access Seeker provides exchange splitter) Survey Option Selected on Order Form (to allow connection of spare path with new drop wire) **	€50.60	Effective from 01/06/13
Connection Order failing validation	€0.50	Effective from 01/06/13
Connection Order Cancelled	€4.00	Effective from 01/06/13
Upgrade from LS to ULMP on the same pair	€15.00	Effective from 01/06/13

Soft Migration from LS to ULMP / GLUMP on the same pair	€4.00	Effective from 01/06/13
---	-------	----------------------------

** A "Failed Completion" results in the full connection charge/full connection with survey charge being raised.

ANNEX C

SERVICE SCHEDULE 106

GLUMP, combined GNP (Geographic Number Portability) and ULMP (Unbundled Local Metallic Path) Service

Effective from 1st June 2013 an Operator can elect to avail of either Standard or Amortised pricing for the connection/migration or fault repair.

Standard pricing refers to the business as usual pricing for GLUMP where the full charge for connection/migration or fault repair is invoiced as a single once-off charge on the next invoice following the actual event. These charges are set out in Table 1.1 to Table 1.7 below.

Amortised pricing refers to a regime where the connection/migration or fault repair charge is levied through an initial up-front element with the remainder of the charge being levied as a recurring monthly charge for the life of the service provided. These charges are set out in Table 1.8 to Table 1.10 below.

An Operator can select Standard or Amortised charging separately for connection/migration and fault repair.

1.1 Standard Connection Charges

These reflect the standard connection charges and any applicable pricing promotions for a particular period and/or a particular order type. For details of promotions please refer to section 1.14.

Service	Price €	Applicability
GLUMP Connection Charge with Successful Completion (existing metallic path) *	€32.63	Effective from 01/04/11 to 31/05/2013
GLUMP Connection Charge with Successful Completion (existing metallic path) * / ** / *** (Note1)	€23.33	Effective from 01/06/2013
GLUMP Connection Charge with Successful Completion (existing metallic path) – Survey Option Selected on Order Form (to allow connection of spare path with new drop wire) *	€65.08	Effective from 01/02/11 to 31/03/11
GLUMP Connection Charge with Successful Completion (existing metallic path) – Survey Option Selected on Order Form (to allow connection of spare path with new drop wire) *	€53.93	Effective from 01/04/11
Number Porting Component failing validation	€6.63	Effective from 01/02/11 to 31/03/11
Number Porting Component failing validation	€1.15	Effective from 01/04/11
ULMP Component failing validation *	€0.61	Effective from 01/02/11 to 31/03/11
ULMP Component failing validation *	€0.50	Effective from 01/04/11

* The GLUMP connection charge will be charged in two discrete elements. €3.33 will be charged following a successful number port of an accepted order. The remaining balance will be charged following the successful unbundling of the metallic path, without and with survey option, associated with that accepted order.

1.2 Standard Migrations Services

.These orders will be charged as set out in the table below

Service	Price €	Applicability
Intra Operator Bulk Migrations and Inter-Operator Bulk Migrations	€18.33	Effective from 01/04/11

1.3 Standard Failed Completion Charges

Number Porting Component requiring Rollback	€3.33	Effective from 1/02/11
GLUMP Failed Completion requiring Rollback (existing metallic path) *	€46.08	Effective from 1/02/11 to 31/03/11
GLUMP Failed Completion requiring Rollback (existing metallic path) *	€32.63	Effective from 01/04/11
GLUMP Failed Completion requiring Rollback (existing metallic path) – Survey Option Selected on Order Form (to allow connection of spare path with new drop	€65.08	Effective from 1/02/11 to 31/03/11
GLUMP Failed Completion requiring Rollback (existing metallic path) – Survey Option Selected on Order Form (to allow connection of spare path with new drop wire) *	€53.93	Effective from 01/04/11

* The GLUMP failed completion charge will be charged in two discrete elements. €3.33 will be charged following the rollback of the number porting component. The remaining balance will be charged following the rollback of the ULMP component, without and with survey option, associated with the GLUMP failed completion.

1.4 Standard Disconnection Charge

Service	Price €	Applicability
ULMP Disconnection **** (Note2)	€15.00	Effective from 01/04/11
ULMP Disconnection ***	€0.00	Effective from 01/06/13

**** disconnection only applies when initiated by access seeker when there is no gaining operator

1.5 Standard Recurring Charge

Service	Price €	Applicability
ULMP Monthly Rental	€12.41	Applies from 09/03/10 to 31/01/13
ULMP Monthly Rental	€9.91	Applies from 01/02/13

1.6 Standard Usage Charge

Service	Price €	Applicability
ULMP Line Testing	€42.16	Effective from 1/02/05 to 30/09/08
ULMP Line Testing ****	€32.30	Effective from 01/10/08
ULMP Fault Clearance (incl. Line Test)*****	€117.31	
ULMP Fault Clearance (excl. Line Test)*****	€109.97	Effective from 01/10/08

**** The Line Test Charge is only raised if the Fault Report results in a test that requires no fault clearance activity

***** The Fault Clearance (incl. Line Test) charge is currently under review.

***** This charge applies where the Operator provides line test results, to the industry specifications, at the time of the fault report.

Note: open eir will rebate any charges incurred by an Access Seeker if a provisioning related fault is received within 8 working days of the line being provisioned. Such faults will include both Early Life Faults and Dead on Arrival Faults.

open eir will also rebate any charges incurred by an Access Seeker for a repeat fault, that is not the result of a separate network failure, occurring within 8 working days of the original fault being cleared.

Dead on Arrival

open eir define Dead on Arrival (DOA) as instances where open eir advised an OAO that the requested service was provisioned when, in reality, the service was never provisioned correctly in the first instance.

Early Life Faults

open eir define Early Life Faults (ELFs) as faults which are reported in the 8 working day period following the provisioning and are localised and cleared to the network elements impacted by the delivery process. This will include faults relating to DOA.

Repeat Faults

open eir define Repeat Faults as faults, that are not the result of a separate network failure, occurring within 8 working days of the original fault being cleared.

1.7 Standard Line Categorisation for Unbundled Local Metallic Path

	Price €	Applicability
Non-order Related Line Categorisation per line	€6.21	Effective from 1/02/05 to 29/02/08
Non-order Related Line Categorisation per line	€0	Effective from 1/03/08
Order Related Line Categorisation per line	€3.66	Effective from 1/02/05 to 28/02/07
Order Related Line Categorisation per line	€0	Effective from 01/03/07

1.8 Amortised Connection Charges

Service	Price €	Applicability
GLUMP Connection Charge with Successful Completion (existing metallic path) *	€5.83	Effective from 01/06/2013
GLUMP Connection Charge with Successful Completion (existing metallic path) – Survey Option Selected on Order Form (to allow connection of spare path with new drop wire) *	€53.93	Effective from 01/06/13
Number Porting Component failing validation	€1.15	Effective from 01/06/13
ULMP Component failing validation *	€0.50	Effective from 01/06/13

* The GLUMP connection charge will be charged in two discrete elements. €3.33 will be charged following a successful number port of an accepted order. The remaining balance

will be charged following the successful unbundling of the metallic path, without and with survey option, associated with that accepted order.

1.9 Amortised Migrations Services

These orders will be charged as set out in the table below

Service	Price €	Applicability
Intra Operator Bulk Migrations and Inter-Operator Bulk Migrations	€5.83	Effective from 01/06/13

1.10 Amortised Failed Completion Charges

Service	Price €	Applicability
Number Porting Component requiring Rollback ***	€3.33	Effective from 1/06/13
