Version Control

Version	Status	Update	Effective Date
V3.0	Final	Dark Fibre in lieu of duct access	17/03/2018

This document follows change control procedure:

Proposed is defined as a document status when the approved document is uploaded to Proposals Section of open eir Website.

Final is defined as a document status when the approved document is uploaded to the relevant section of the open eir Website following the publication period.

For information:

- Historical Document History Table located at end of Document.
- Publish means the action of uploading a document to the relevant section of the open eir website be it the Proposal section or appropriate product section.
- If there are changes to the document between 'Proposed' and 'Final', change control operates.

Force Majeure

Neither party to this agreement shall be liable for any failure to perform its obligations hereunder where such failure is due to acts beyond its reasonable control including but not limited to, act of God, insurrection or civil disorder, war or military operations, national or local emergency, acts or omissions of the government, state agency or ComReg, highway authority, fire, flood lightning, explosions, subsidence, weather of exceptional severity, impacting industrial dispute, acts or omissions of persons or bodies for whom the party affected thereby is not responsible or acts of local or central government, state agencies or ComReg or other competent authorities (Force Majeure).

Definition of Terms

All terms are as defined in the current Industry process manual, entitled Duct Access Industry Process Manual,.

Working Day
