

Quarterly Aggregated SLA performance report

Provisioning, Assurance and Appointments

Q2 2019

Quarterly Aggregated SLA Performance Report

As outlined in ComReg Decision D10/18 WLA Market Section 10.9 and WCA Market Section 10.18, open eir has an obligation to publish quarterly reports that outline the actual performance achieved against the relevant SLAs included in these markets. These quarterly reports should be broken down on a month by month basis with aggregated data for all Operators availing of the services in the markets. In addition, open eir is required to provide the methodology on how the individual metrics are calculated, which can be found in the openeir website:

<https://www.openeir.ie/WorkArea/DownloadAsset.aspx?id=6037>

This report is comprised of six individual tables for the period:

- Tables 1-3: Provisioning metrics, including Appointment-based SLA.
- Tables 4-6: Service Assurance metrics.

Note: the report only includes metrics that had registered activity in the period in question in open eir's systems.

Process points abbreviations

APPT	Appointment
DC	Delivery Confirmation
DD	Due Date
DEL	Delivery
OA	Order Acknowledgement
OF	Order Forecast
OV	Order Validation
R	Repair
VAL	Validation
